

Cost and Requirements for NOGIC JQS Registration with NCDMB

Description

The Nigerian Content Development and Monitoring Board (NCDMB) is a federal government agency created by the Nigerian Oil and Gas Industry Content Development (NOGICD) Act, which became effective on April 22, 2010.

The NCDMB is charged with overseeing and implementing local content requirements within [Nigeria's oil and gas sector](#).

A crucial part of this mandate is the Nigerian Oil and Gas Industry Content Joint Qualification System (NOGIC JQS), an electronic platform designed for data consolidation on all significant activities in the industry.

Understanding NOGIC JQS

The Nigerian Oil and Gas Industry Content Joint Qualification System (NOGIC JQS) serves as a comprehensive database and electronic platform to ensure compliance and monitoring of local content within the Nigerian oil and gas industry.

Managed by the NCDMB, NOGIC JQS enables the registration, evaluation, and oversight of all industry participants, ensuring they adhere to the local content stipulations set by the NOGICD Act.

Categories of NOGIC JQS Registration

NOGIC JQS registration is available for the following categories:

1. **Individuals** (Nigerians globally)
2. **Service Companies**
3. **Operators** (including International Oil Companies (IOC), Marginal Field Operators, Downstream Operators, National Oil Companies)
4. **Tertiary and Research Institutions**
